EME Group nel corso degli anni ha acquisito una importante esperienza nell'ambito di settori specifici, lo sviluppo di motori elettrici con caratteristiche personalizzate in funzione dell'applicazione è la fonte di questo catalogo. Uno strumento che si propone quale guida indispensabile per i produttori di compressori. Abbiamo raccolto in un unico manuale la gamma di motori elettrici che generalmente vengono utilizzati per i compressori dividendola in Motori Monofase MMSTD, Motori Monofase con condensatore di spunto MD e Motori Trifase MT

La gamma MMSTD è prodotta con condensatore di marcia perennemente inserito. Nella gamma MD inseriamo un condensatore aggiuntivo per aumentare la coppia di avviamento Proponiamo la gamma MT in due versioni STD e HES. Il motore standard trifase MTSTD è sviluppato per soddisfare le prestazioni di rendimento indicate dalla Direttiva Europea (EUP) N.640/2009 che prescrive obblighi sui rendimenti minimi ed identificata con la sigla IE1. Abbiamo inoltre aggiunto il motore Trifase HES (High Energy Saving) che riflette i rendimenti indicati dalla stessa Direttiva Europea con la sigla IE2.

Tutti i motori per compressori sono disponibili (su richiesta e con sovrapprezzo) con omologazione UL e CSA essendo costruiti e marcati in conformità ai requisiti di sicurezza stabiliti dai due principali Organismi di controllo nordamericano: file di identificazione E1176350 per UL e LR109925 per CSA.

The large know how of EME Group comes from the experience done in several markets, the development of custom made electric motors tailed for specific applications is the origin of this manual. This catalogue would like to be a useful guide for the compressors' manufacturers.

The electric motors used for compressors have been collected in a unique file listing the Single Phase motors MMSTD, the Single Phase motors with high starting torque MD and the Three Phases motors MT.

MMSTD range includes a run capacitor permanently connected. Into the MD range to increase the starting torque we connect an addition capacitor. MT range is available in two versions STD and HES. The standard MT is made to meet the efficiency performances established by the European Directive (EUP) N.640/2009 defined as IE1. We offer additionally the Three Phases HES (High Energy Saving) meeting the efficiency standards defined as IE2.

All the electric motors are available (upon request subject to addition costs) with UL-CSA approval when manufactured and marked in accordance with the safety requirements determined by the two main North American Control Bodies: E1176350 identification for UL and LR109925 for CSA.

1	Coprialbero - Shaft protection - Wellenschutz - Protección eje Couvre arbre
2	Scudo anteriore - End shield (drive end) - vorderes Gehäuseschild Escudo delantero - Flasque avant
3	Cuscinetto - Bearing - Lager - Cojinete - Roulement
4	Albero motore - Shaft - Welle - Eje - Arbre
5	Rotore - Rotor - Rotor - Rotor - Rotor
6	Statore avvolto - Stator assembly - gewickelter Stator Estator bobinado - Stator enroulé
7	Carcassa motore - Frame - Gehäuse - Carcasa - Carcasse moteur
8	Morsetteria - Terminal board - Klemmenleisten - Bornera - Plaque à bornes
9	Coprimorsetteria - Terminal box - Klemmenleistenabdeckung Caja de bornes - Boîte à bornes
10	Pressacavo - Cable gland - Kabelschelle - Prensa estopas - Presse-étoupe
11	Protezione ventola - Blower Protection - Gebläse Schutz Protection de ventilateur - Protección del ventilador
12	Anello di compensazione - Pre-load washer - Kompensationsring Anillo de compensación - Bague de compensation
13	Scudo posteriore - End-shield (non-drive end) - hinteres Gehäuseschild Escudo trasero - Flasque arrière
14	Ventola di raffreddamento - Cooling fan - Kühventilator Ventilador - Ventilateur
15	Copri ventola - Fan Cover - Lüfterhaube Tapa ventilador - Couvre ventilateur
16	Targa motore - Nameplate - Etikette - Placa - Plaque
17	Piede carcassa - Foot - Gehäusefuss - Pata - Pattes
18	Linguetta di trascinamento - Shaft key - Schlüssel Chaveta de tracción - Clavette
19	Flangia B14 - B14 flange - B14 Flansch - Brida B14 - Bride B14
